

BOHS - P402 Surveying & Risk Assessment

Course Aim

To provide practical skills required to manage asbestos in buildings and a basic knowledge of asbestos removal procedures.

Who Should Attend?

Those responsible for managing asbestos in a building or estate including staff within H&S and property departments, or site and project managers.

Delegates for this course are expected to be aware of the contents of The Control of Asbestos Regulations 2012 and other relevant documents.

Course Duration

This is a 3-day course.

Maximum Delegates

The maximum number of delegates is 8.

Agenda

- Legislation and guidance
- Asbestos in buildings
- Risk assessments
- Management of asbestos
- Bulk sampling
- Personal decontamination
- Practical work

If delivered in-company, space will be required for a decontamination unit and erection of a basic enclosure.

Certification

Upon successful completion of the course delegates will receive a BOHS P402 Surveying & Risk Assessment certificate.
