

PASMA - Mobile Access Towers for Users (E-Learning)

Course Aim

To provide delegates with an understanding of current relevant legislation and be able to assemble, use and dismantle mobile access towers safely, as per the manufacturer's instructions.

NOTE

Completing the e-learning alone does not qualify you as a tower user; industry standards require both the knowledge gained in the e-learning theory session and assessed assembly and use of the equipment to demonstrate proficiency. Once you have completed the e-learning, you must also complete the practical assessment and testing at a PASMA approved HSS Training centre. On successful achievement, of all three parts, we will apply for your PASMA Certification and ID Card.

Who Should Attend?

Those who need to erect, dismantle and use mobile access towers safely.

This e-learning module is ideal for those individuals who do not want time away from their job / workplace.

Since the assembly and use of mobile towers can be physically demanding, users should be physically fit, in good health and should, generally, not have problems with eyesight or hearing, heart disease, high blood pressure, epilepsy, fear of heights / vertigo, giddiness / difficulty with balance, impaired limb function, alcohol or drug dependence or psychiatric illness.

Agenda

The e-learning module is a series of videos covering the same content as the normal classroom based Towers for Users course.

- PASMA Training Scheme
- Standards / Regulations
- Equipment / Selection / Inspections
- Assembly methods
- Hazards
- Assessment

Course Duration

This is a 4 hour course.

PASMA - Mobile Access Towers for Users (E-Learning)

Certification

Having completed the e-learning theory module, delegates will be issued with a 'certificate of completion'. Delegates will then need to contact HSS Training to sit their theory exam and undertake practical training and assessment in one of our training centres within 90 days of completing the e-learning module [temporarily increased due to Covid-19]. The follow up event is a half day face to face session with practical training and assessment.

To find the next available date at a centre near you, please contact us on 0345 605 0006 or email training@hss.com.

All delegates will still be expected to complete a theory test when they arrive at a training centre to verify that they have the knowledge to continue to the practical element of the course. Delegates will be required to bring their e-learning 'certificate of completion' with them on the day.

Delegates successfully completing the course will receive a PASMA Certification and ID Card (valid for 5 years).
